

EARTHCHECK

EARTHCHECK CERTIFIED COMPANY

Decipher your operational performance

EarthCheck provides an easy to use web based framework to centralise the collection of operational data and foster transparent year on year improvements to your bottom line.

The EarthCheck Company Standard provides:

Benchmarking - Quantitative evaluation of your environmental and social performance against sector and region Baseline and Best Practice levels. Effective benchmarking delivers clarity and injects confidence. It puts rigor and transparency into business processes and strengthens financial reporting to shareholders, clients and executive management teams.

Certification - Qualitative verification of your environmental and social performance against the EarthCheck Company Standard by an approved independent third party EarthCheck Auditor.

The Platform

The EarthCheck Company Standard uses a performance-based platform that is supported by a range of benchmarking indicators and (KPA's) for operations which include:

1. Greenhouse Gas Emissions
2. Energy Efficiency, Conservation and Management
3. Management of Freshwater and Stormwater Resources
4. Ecosystem Conservation and Management
5. Management of Social and Cultural Issues
6. Land Use Planning and Management
7. Air Quality and Noise Control
8. Wastewater Management
9. Solid Waste Management
10. Environmentally Harmful Substances
