The EarthCheck Software as a Service platform (SaaS) provides a secure and integrated cloud application solution to drive organisational performance by managing, automating and improving the efficiency of key activities, processes and information. EarthCheck SaaS also offers ‘plug-in’ or customised solutions for organisations across most industry sectors.

Clients have an ability to securely access vital information across a broad range of performance metrics anytime, anywhere and from any device. With a completely cloud-based delivery, the platform delivers corporate and social responsibility reports as well as operational, financial and compliance reports. The platform becomes a centralised portal that can be personalised to allow each client to develop an individual branded interface.

EarthCheck SaaS is a complete enterprise-wide sustainability performance management solution for the whole value chain, which can cover all sustainability applications, as needed, including carbon, energy, environment health and safety (EH&S), procurement, risk and design.

Features include:
- Easy capture of both qualitative and quantitative information.
- Uploading and storage of documents as attachments.
- Visually compelling graphs of quantitative data.
- Calculation of performance metrics and indicators using factors that change over time.
- Financial reporting (e.g. energy, water, waste).
- Helpful online support functionality such as FAQ’s, glossaries and embedded videos.
- Benchmarking of business operation’s quantitative results against their regional peers.
- Benchmark management and automatic updating using statistical methods.
- Custom report generation.
- Group administration console for business clusters to track and manage their user’s progress and performance data.
- Administration consoles for user management and data submission management.
- Client subscriptions management.
- Client invoicing and payment management.
- Ability to award achievements to users.

Tailored solutions for you

EarthCheck is a world-leading scientific benchmarking, certification and advisory group filled with talented and passionate people. Since 1987, we have helped deliver clean, safe, prosperous and healthy destinations for travellers to visit, live, work and play. We understand the value of big ideas and the importance of clear communication. We know that what can be good for the planet is also good for business.

The EarthCheck SaaS platform is deployed in more than 70 countries

“EarthCheck has been working with leading destinations and operators in Mexico since 2002. Our partnership provides opportunities to work across Mexico to deliver tailor-made and market-driven sustainability solutions to operators, destinations, local Government and communities.” Agustín Alvarado Saravia, Sub. Presupuesto de Obras y Permisos Ambientales, FONATUR.
