EarthCheck has deep understanding and experience measuring the underlying principles of ESG. The World Economic Forum has distilled myriad ESG factors into 4 pillars: Principles of Governance, Planet, People and Prosperity. The EarthCheck Company Standard covers all core element of the 4 pillars which reflects the comprehensive nature and adaptability of the science that forms the foundation of EarthCheck's certification and benchmarking platform.

ESG Services

EarthCheck has long prioritised the fundamentals of ESG in its evaluation of sustainability. This experience allows our specialists to understand the material impacts of ESG factors for your firm. The result is assurance that you are accounting for all relevant risks, identifying potential opportunities and translating organisational sustainability into long-term success.

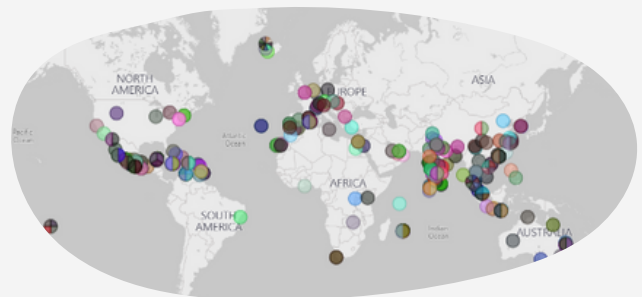

Alignment

Whether ESG reporting is mandatory for your organisation or motivated by market competitiveness, EarthCheck is aligned to your standard.

Benchmarking

EarthCheck has ESG benchmarks for diverse sectors and destinations from around the world to provide insight into your organisation's performance.

Reporting

EarthCheck can communicate your ESG commitments, goals and performance to stakeholders and investors, helping you maximise the benefits and value to your organisation.

Walking the Talk

"We feel that EarthCheck is the most stringent and relevant benchmarking tool for us to first measure our performance then systematically take actions for improvement."

Banyan Tree Holdings

"EarthCheck's software platform is one of a kind and the best system in the world for reporting carbon emission in tourism."

**David G Simmons, PhD, MInstD,
Professor Emeritus (Tourism)
Chair, EarthCheck Research Institute**

"Environmental, social and governance performance reporting is now being factored into core business and financial decisions either as a risk for revenue or as an opportunity to support business growth and investment. EarthCheck performance reports provides a perfect platform to support these discussions."

**Stewart Moore
Executive Director, APEC International Centre
for Sustainable Tourism**
